SURIA ENGINEERING SOLUTIONS SDN BHD

Dear customers and Partner in Business,

We at SURIA ENGINEERING SOLUTIONS BHD. would like to express our sincere thanks, appreciations and gratitude towards all our customers, partners and friends who have already rendered their unconditional support to us for all these years.

The establishment of SURIA ENGINEERING SOLUTIONS was driven by our ambitions to produce and sell smart engineering products and solutions that are simple, effective and beneficial to mankind and mother earth. We want our product to be able to help with solving common problems in daily life with new engineering solutions that are smart and effective.

We are committed to ensuring long-term sustainability of our activities and believe that cooperating with us will be very attractive for our customers in terms of profits, benefits and reliabilities.

We look forward to working with you, have a great day!

Sincerely, Zulkufli B. Zakaria.

HISTORY

We started as Suria Giant Fan Services Sdn Bhd in 2014, pioneering in High Volume Low Speed (HVLS) production in Malaysia. As a specialised engineering company, we catered to innovate, manufacturing, sales and service of our HVLS fans. Do visit our website, www.suriagiantfan.com to know more on our product line-up.

Smart & Practical Solutions

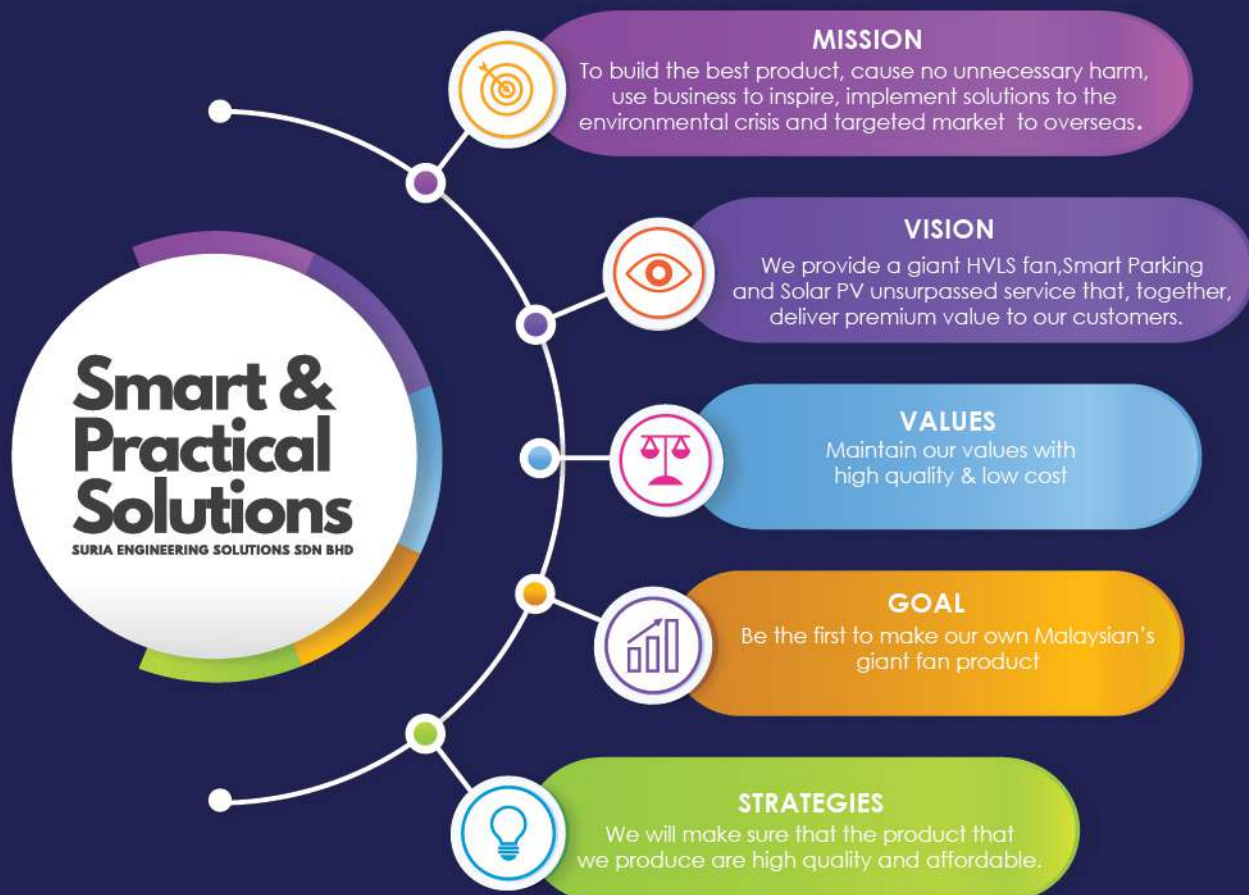

SURIA ENGINEERING SOLUTIONS SDN BHD

In 2021, we rebrand ourself as Suria Engineering Solutions Sdn Bhd. Not just a name change, but it is a game changer for us, which is we produce all new product line up in our company. Giant HVLS Fan, Suria Parking Solutions and Suria Energy Solutions are born to cater the new world of engineering and technology that helps to solve daily problem in a smarter way.

Suria Energy Solutions was born to provide the latest solar power technologies for all. We offer renewable energy solutions that have proven themselves over years of use.

These systems can help you save money and the environment by reducing the need for non-renewable energy sources and saving precious resources like water, fossil fuels, and trees. Learn more via www.suriaenergysolutions.com.

We also provides smarter parking solutions, by constructing rotary parking and stacker parking. Suria Parking Solutions was founded with the goal of developing smart parking solutions to tackle parking problems. In future, we will produce more advanced invention to tackle parking problems in a brilliant way. Kindly visit our website, www.suriaparking.com for more info.

Our CEO, Mr. Zulkufli Zakaria along with Universiti Teknikal Malaysia (UTeM) Vice Chancellor, Professor Datuk Ts. Dr. Shahrin Bin Sahib & Assistant Vice Chancellor (Research & Innovation) Professor Dr. Ir. Jailani bin Mohd Nor during the Memorandum of Agreement (MoA) Event.

RESEARCH & DEVELOPMENT (R&D)

We entered into a joint venture with the Faculty of Engineering Universiti Teknikal Malaysia Melaka (UTeM) to further improve the quality of this HVLS Giant Fan product in terms of technology and safety.

Our main focus is on the latest technological innovations and the development of "GREEN" technology products, which save electricity and are environmentally friendly.

We also intend to make this new HVLS Giant Fan technology more sophisticated and easy to operate, resilient and cheaper.

What We Do?

MANUFACTURER

We produce our own giant fan with advanced technology from Europe and Italy. But all parts of Giant Fan are from Malaysia. We successfully produced a high quality five/six blade HVLS fan and save electricity

CONSULTATION

Suria Engineering Solutions provide free consultation and site visit throughout Malaysia for free. This including our HVLS Fan, Solar PV Panel and Smart Parking.

SUPPLY

We also supply and manufacturer of HVLS fan to the market in Malaysia and may expand its branches overseas. We also supply Solar PV and Smart Parking.

INSTALLATION

Our company has provided trained workers in the field of installations and electrical for installations activities.

SERVICE & MAINTENANCE

We provided services after sale for Suria and other HVLS fan brands to maintain. We also providing service & maintenance for Solar PV Panel and Smart Parking.

Our team consists of personnel that have the capability to get the job done. We are well versed and highly knowledgeable in our field, from the management team to the technical workers.

Our Team & Strength

MANAGEMENT

Our management team encourage and lead new initiatives to achieve common goals. Their leadership skills in the organization strengthen operational effectiveness.

Administrating and empowering the organization, the management prioritize sustainable business growth and expansion in order to deliver long-term value to shareholders.

ADMIN & ACCOUNT

Admin and account team grants the highest quality service to the Centre through leadership of the professional practices and management of its infrastructure and all assets including administrative and financial resources.

Providing administrative support for the Centre in its daily operations, overseeing budgeting and accounting, and developing and producing organizational analyses to assist in strategic planning.

MARKETING & SALES

Our sales and marketing team focuses on the execution of marketing plans, building networks to expand our market by introducing new partnerships and business opportunities.

Our marketing team analyzes geographic target markets by strategically focus on potential buyers, understanding their needs and keeping abreast of future emerging trends.

TECHNICAL SKILLS

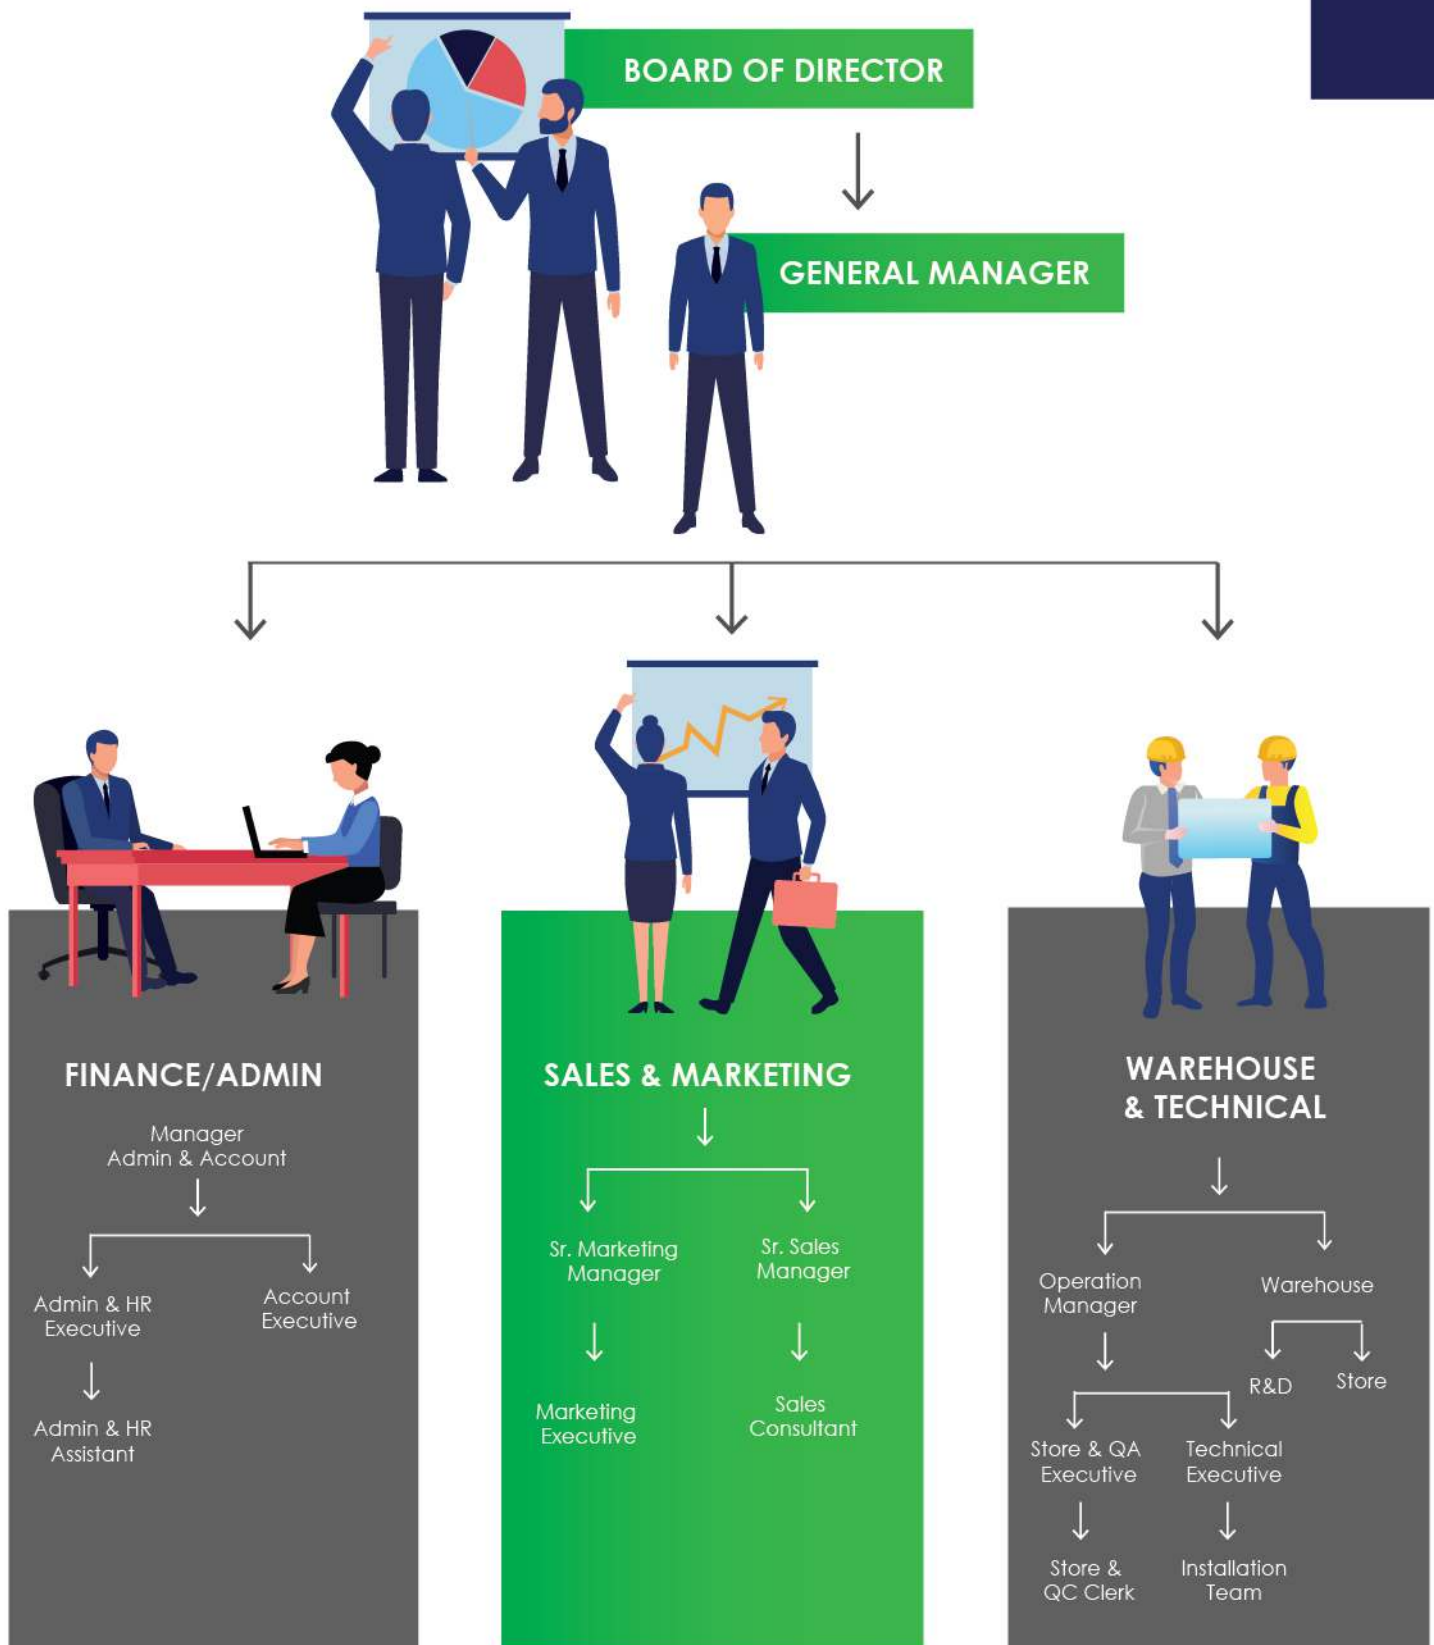

We believe in constant improvement at every level to support company's overall operations. We provide training to enhance our employee knowledge and further develop their skills.

This will respect their personal strength and show professional value in the organization. We believe in consolidating our knowledge and working together for the best solutions.

Organization Chart

INNOVATION AND EXCELLENCE WITH SURIA ENGINEERING SOLUTION'S HVLS FAN

Suria Engineering Solution Sdn Bhd stands as a trailblazer in the production of High-Volume Low Speed (HVLS) fans within the Malaysian market. We have solidified our position as one of the foremost and accomplished companies in the HVLS fan industry.

Our core focus revolves around specialized engineering, prioritizing innovation, manufacturing, sales, and dedicated service of HVLS fans. An accolade we proudly hold is our unique status as the singular HVLS fan producer in Malaysia, distinguished by our capability to independently assemble and manufacture these HVLS fans, all offered under the prestigious Suria Giant Fan brand.

INDUSTRY CERTIFICATION AND RECOGNITION

We proudly emphasize the exceptional quality of the Suria Giant Fan brand. Our products have earned prestigious certifications from a variety of reputable local and international regulatory bodies and organizations.

These certifications are a testament to our unwavering dedication to safety, environmentally conscious design, and strict adherence to industry standards within the building and construction sectors.

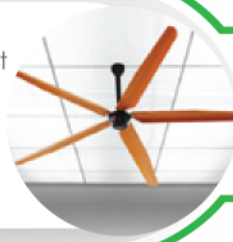

Notable among these certifying bodies are the Construction Industrial Development Board (CIDB), the National Institute of Occupational Safety and Health (NIOSH), Suruhanjaya Tenaga (ST) and the International Electrotechnical Commission (IEC).

These certifications highlight our dedication to delivering top-notch products

RESIDENTIAL AND BEYOND!

The new Suria Giant Fan model, the R-Series, is built to perfection. With the blade diameter 2.1 meters of length, it will tremendously widen the wind coverage area. Equipped with the 20-speed regulator intelligent control, it sure giving you that extra control of the R-Series HVLS Fan.

R-SERIES

XS-SERIES
SERIES

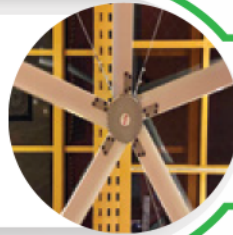

COMPACT AND EFFICIENT

The XS Series is renowned for its exceptional power efficiency, achieved through precise control using Motor Direct Drive Technology. Its design is meticulously crafted to minimize the energy required for cooling while maximizing your comfort even in the most extreme heat conditions.

LOW NOISE YET POWERFUL

Our Best Selling HVLS Fan, the X Series uses special permanent magnet motor to produce noiseless around during its normal running. A natural breeze sound like can be heard from one metre away without any motor sound audible.

X-SERIES

EURO
SERIES

BIGGER, BETTER!

HVLS Fans (High Volume Low Speed Fans) is the new solution of energy saving to solve the ventilating or cooling problem of large space. Our large energy-saving ceiling fans comes with maximum diameter of 7.3 meters.

INVERTER INSIDE

Grande series use built-in inverter to reduce high frequency electronic noise that may cause interference with other devices.

GRANDE
SERIES

POLE
SERIES

GIANT OUTDOOR FAN

Pole Type HVLS Fan can be installed at places where there are no ceilings that HVLS fans can be installed from. Since these fans are to be installed in an outdoor setting, the fans have a relatively big diameter as well.

REMOVABLE COOL AIR

Bring cool airflow with you with our Mobile Large Industrial Fan. These fans are best suited for large workplaces, such as in a factory or workshop setting. Just roll these industry fans around to anywhere you need it!

MOBILE
SERIES

Rotary Parking

SMALL SPACE, MORE PARKING

This parking equipment is design to provide parking capacity base on pallet's movement circulation. Designed for small quantity of parking spaces Therefore it provides short time of vehicles entry.

SURIA ^P
PARKING SOLUTIONS

Smart Parking

Stacker Lift Parking

STACKED UP!

Stackers are aimed to double the parking space above ground / basement type parking. Full art in technology. They have horizontal carts in each level and a vertical lift which carries the car from the device level to different floors.

RENEWABLE ENERGY IS THE FUTURE

Solar PV Installation

Suria Energy Solutions is committed to providing the latest solar power technologies for our customers. We offer renewable energy solutions that have proven themselves over years of use.

LFP BATTERY

This is a multi-function inverter/charger, combining functions of inverter, solar charger and battery charger to offer uninterruptible power support with portable size. Its comprehensive LCD display offers user-configurable and easy-accessible button operation such as battery charging current, AC/solar charger priority, and acceptable input voltage based on different applications.

LFP BATTERY

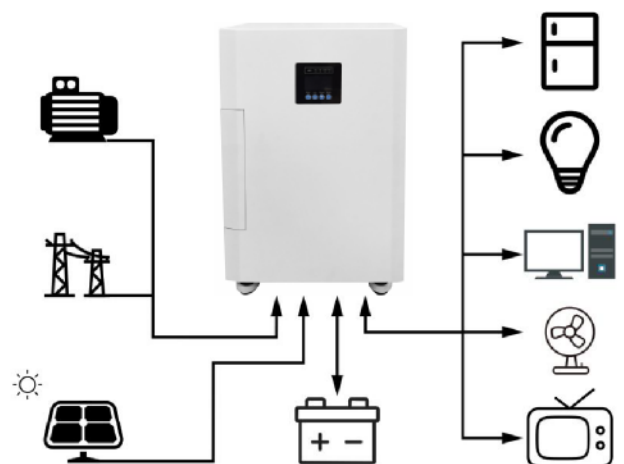

Widely used in outdoor or emergency electricity, suitable for camping, outdoorwork, market stalls and other temporary electricity scenarios

Made of high quality lithium iron phosphate cell, high safety factor is not easy to heat out of control, service life of up to 10 years, the cycle can reach more than 3000 times.

SMART BMS

With overcharge, overdischarge, overload, shortcircuit, over temperature and other protection functions to protect the battery in real time.
